

ZONAR
CARE

Protect your fleet technology from start to finish

Uptime makes money, downtime costs money. Zonar Care Technology Support Services protects your Zonar investment to keep your fleet running, technology working and service uninterrupted. Your technicians are able to focus on core maintenance requirements. Repairs are done on your time, your terms and with as little interruption as possible.

Remote system health monitoring

We'll notify you if and when your fleet technology needs repair.

Real-time online updates

Stay informed with custom dashboards on our secure web portal.

Scheduling

We'll schedule repairs so they're completed as quickly as possible.

Hardware procurement

We'll help procure hardware such as mounts, phones and tablets.

24/7 Mobile Repair

We'll meet your drivers when and where works best for them.

Repairs within 7 days

We'll complete repairs within seven calendar days, regardless of location—guaranteed.

Flat-rate pricing

Stick to the budget with our simple “per unit per month” subscription.

Inventory management

We'll ensure replacement hardware is available and return merchandise authorizations (RMA) are processed.
